Analysis

As per the problem statement, we have defined the several Use Cases to perform the analysis on which helps in not only understanding the meaningful relationships between attributes but it also allows us to do our own research and come-up with our findings.

1. Distribution of 'Rating':

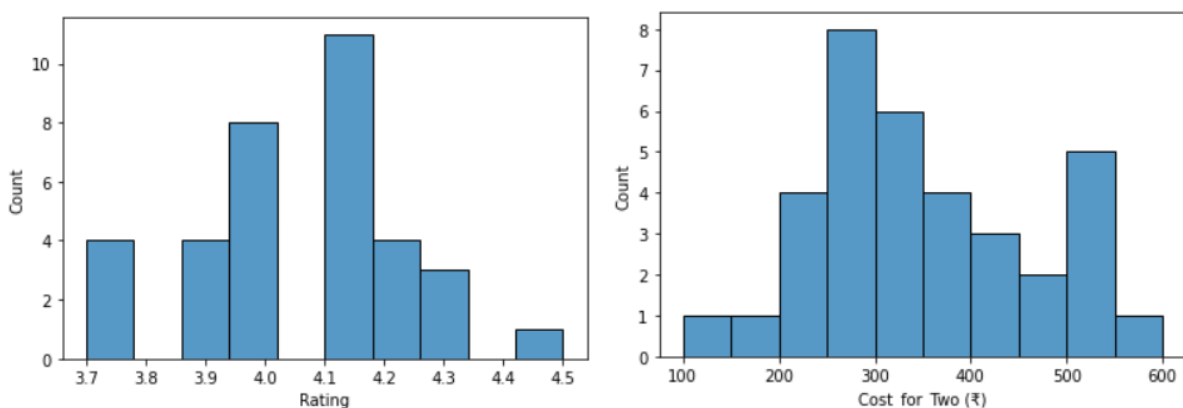

In this DistPlot visual, we tried to interpret the distribution of Ratings.

2. Area-wise Analysis on 'Rating' and 'Cost_for_Two (₹)':

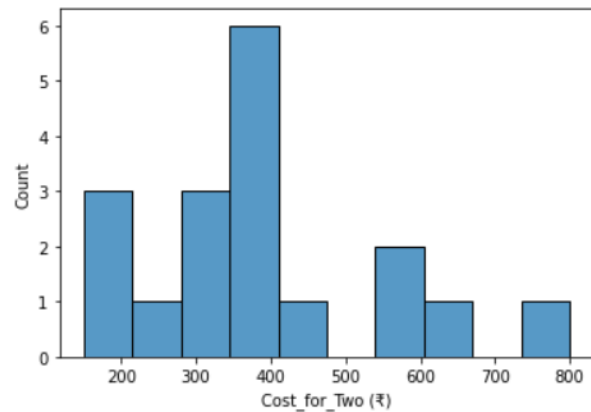

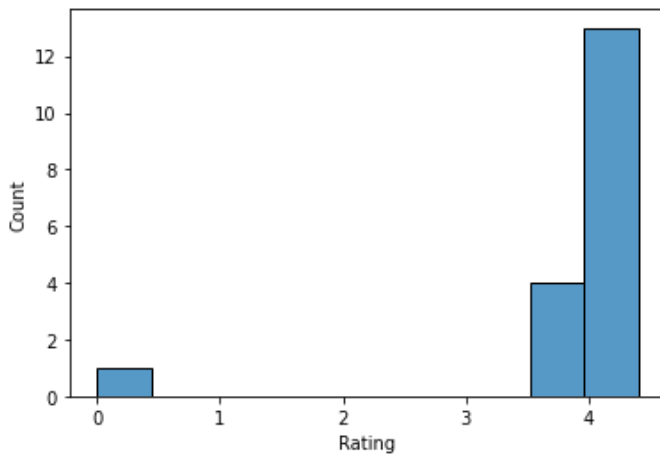

In this section, we analyse the data and tried to interpret the followings - I.e.

- **BTM Area:**

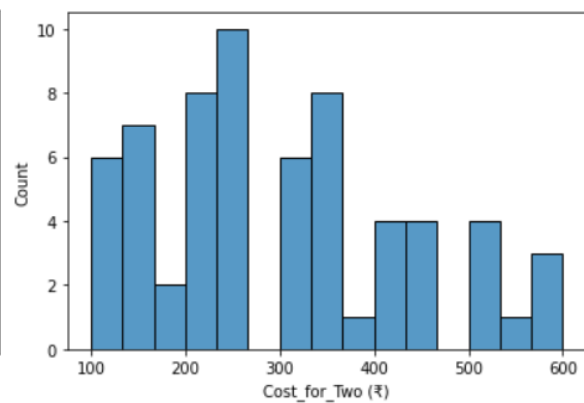

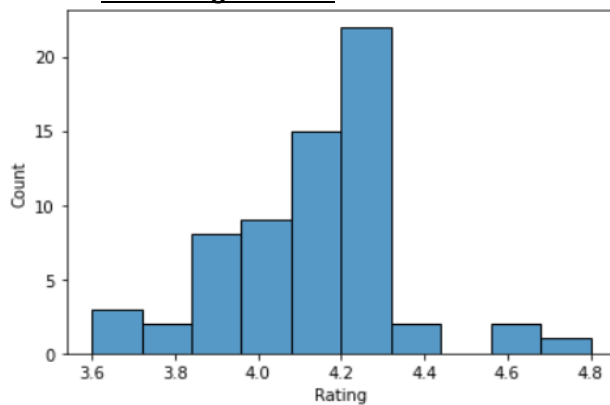

BTM: Most has **4.0 to 4.2** Rating and Approx. Cost for Two People lies between **200 to 350**. (Max. Cost goes upto **600**)

- **HSR Area:**

HSR: Most has 4 or above Rating and Approx. Cost for Two People lies between 300 to 400. (Max. Cost goes upto 800)

- **Koramangala Area:**

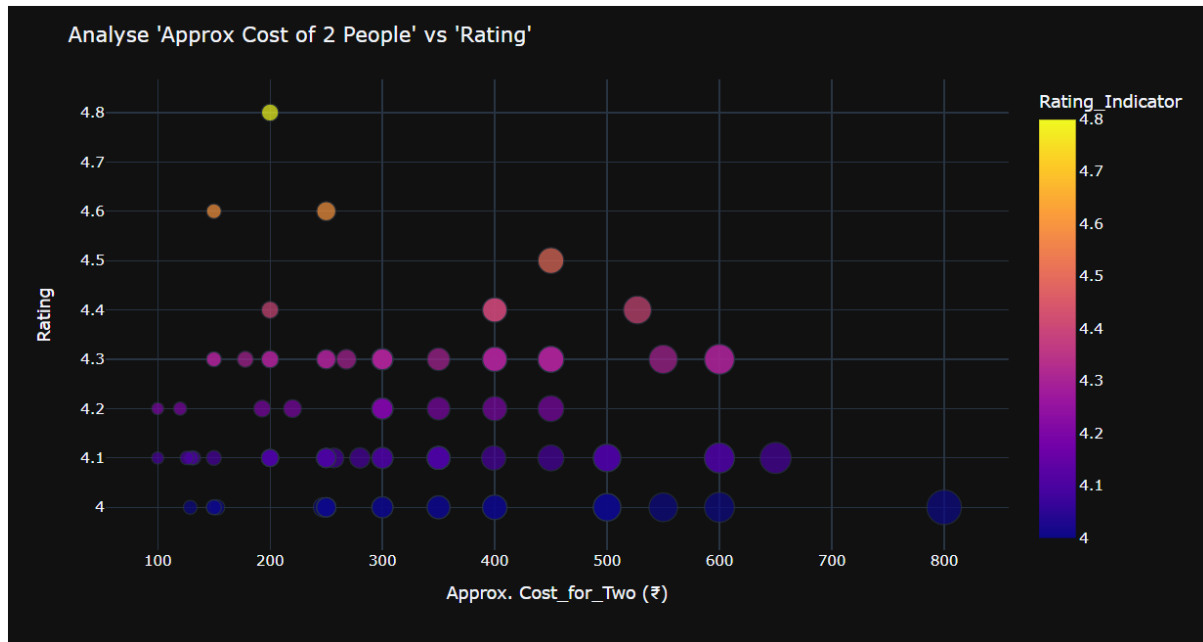

Koramangala: Most has 4.0 to 4.3 Rating and Approx. Cost for Two People lies between 200 to 350. (Max. Cost goes upto 600)

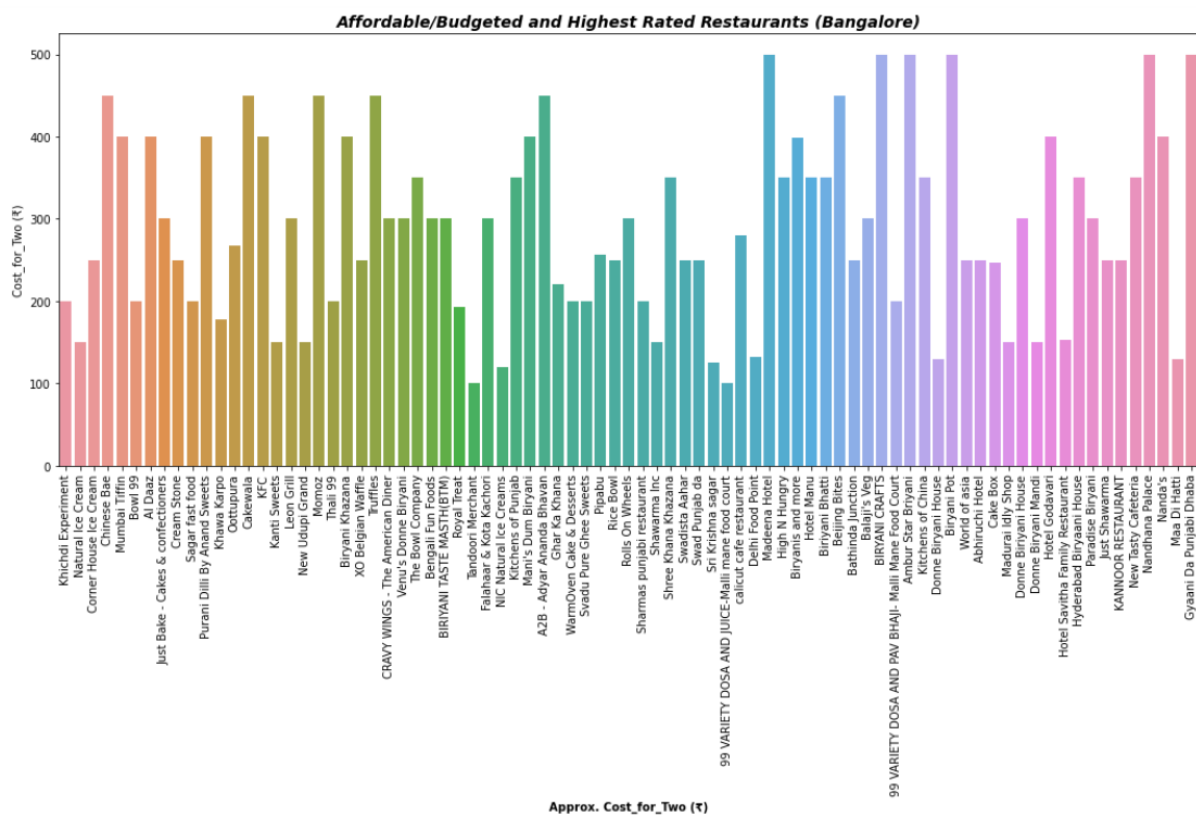

With this we can conclude the Most Costly Area is **HSR**.

3. Analyse "Approx Cost of 2 People" vs "Rating". Find out the relationship between them:

Here, we tried to interpret the relationship between "Approx Cost of 2 People" vs "Rating" using Scatter Plot.

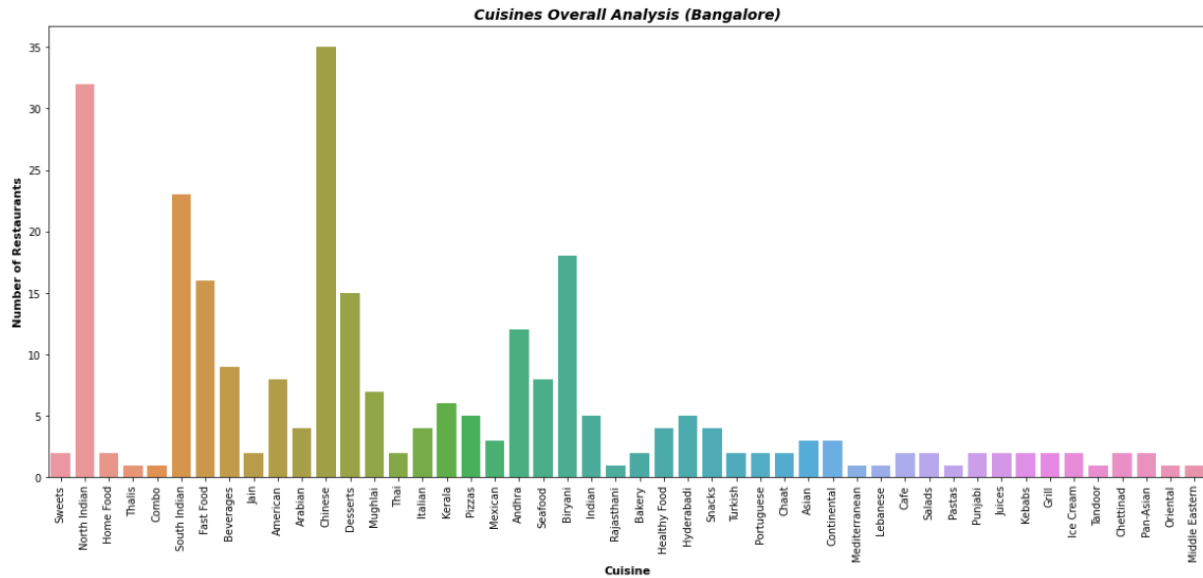

4. Analyze Affordable/Budgeted and Highest Rated Restaurants of Bangalore:

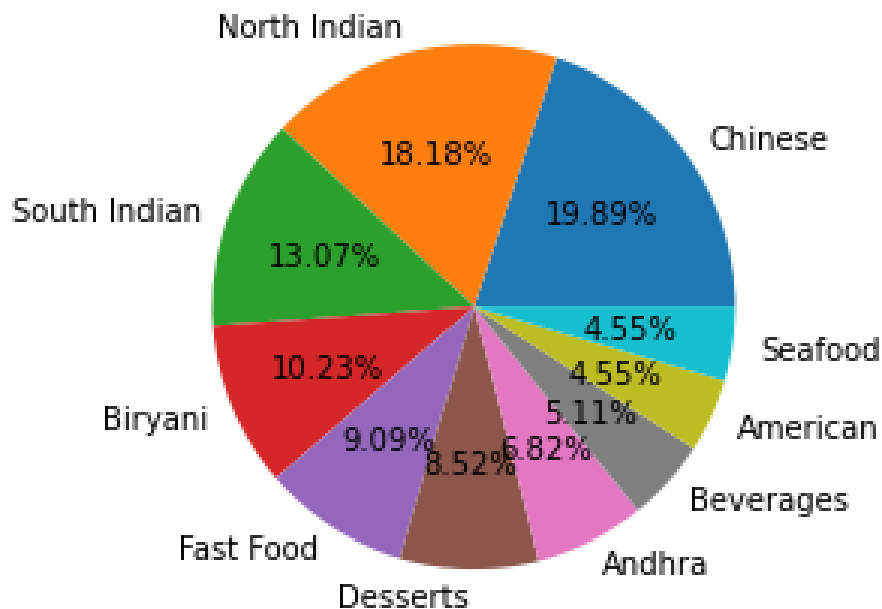

● Cuisines Analysis:

7. Cuisines Overall Analysis (Bangalore)

Here, we tried to interpret the Most preferred Cuisine type in the entire Bangalore.

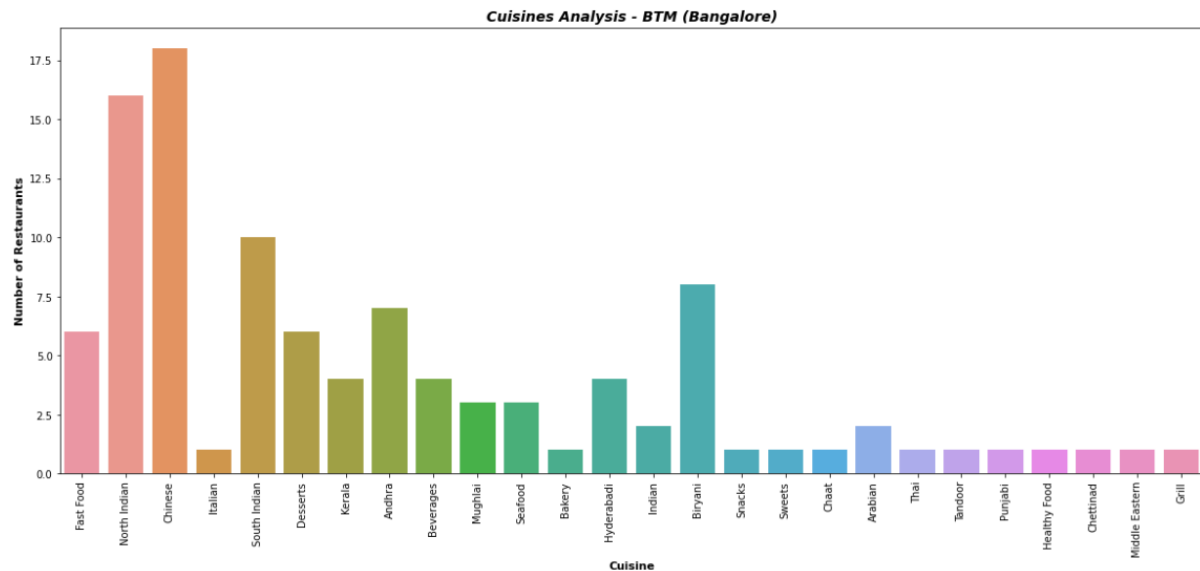

8. Overall Distribution of Cuisines in Bangalore Restaurants:

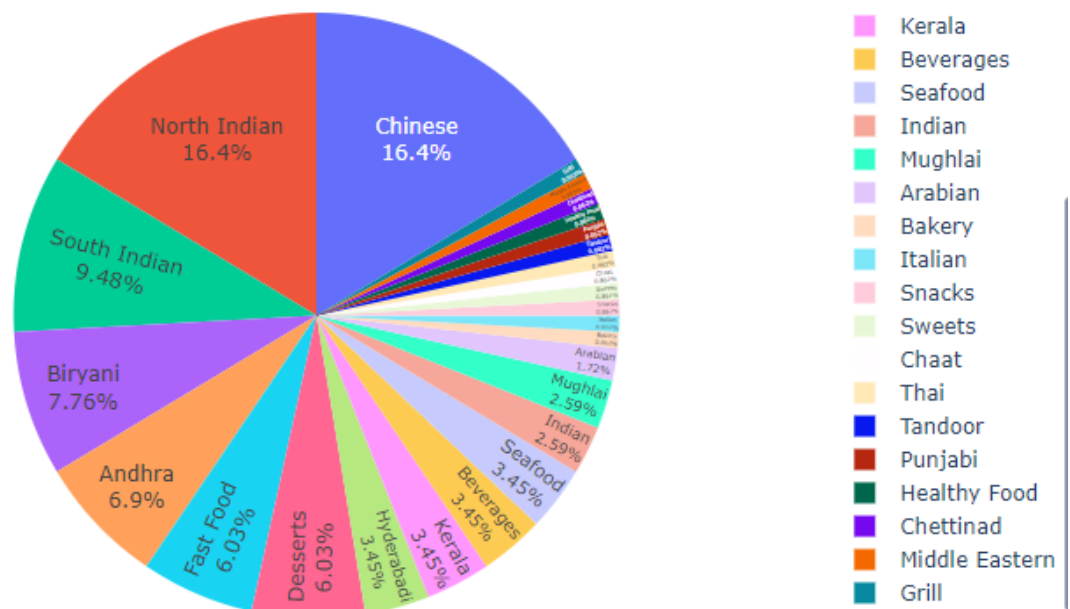

9. Area-wise Cuisines Analysis:

In this section, we analyse the data and tried to interpret the followings - I.e.

- **BTM Area:**

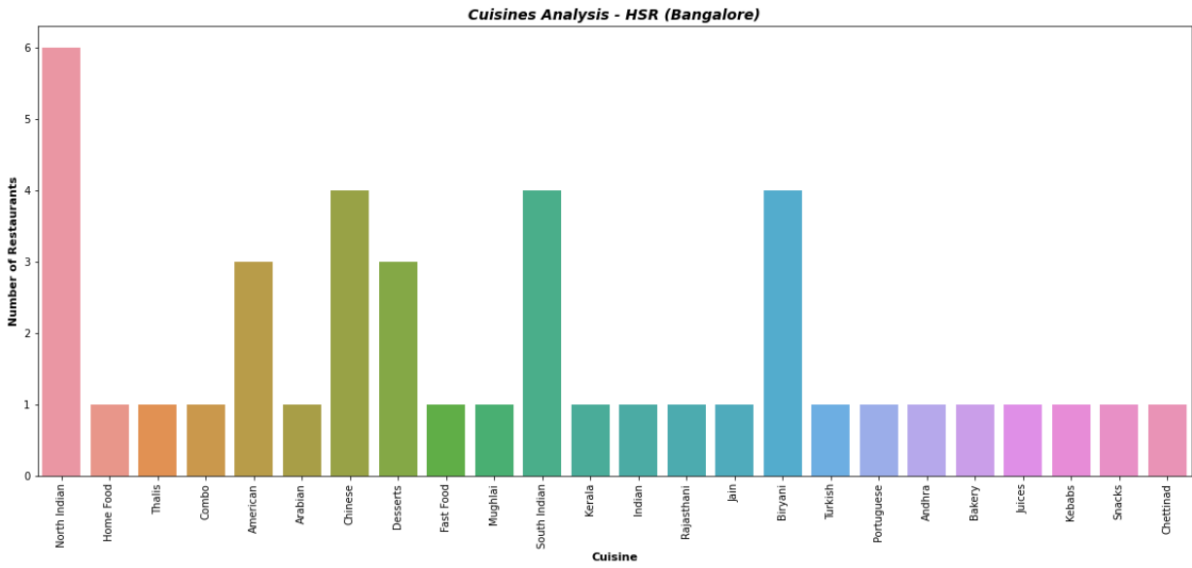

Distribution of Cuisines in Area BTM Restaurants

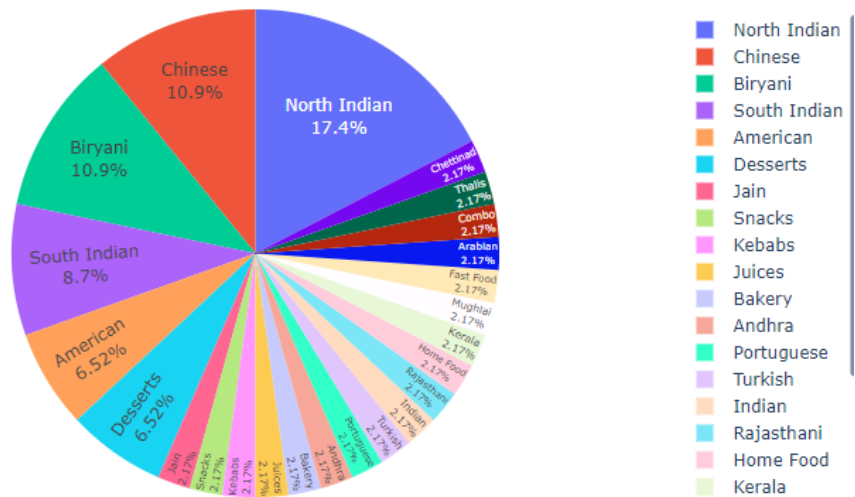

From the above Visualizations, We can say, In BTM Area, Most of the Resturants sell "Chinese" which is around '16.4%' followed by "North Indian" & "South Indian" Cuisines which are around '16.4%' & '9.48%'

So, We can also infer that Most of the people are fond of these Cusines.

- HSR Area:

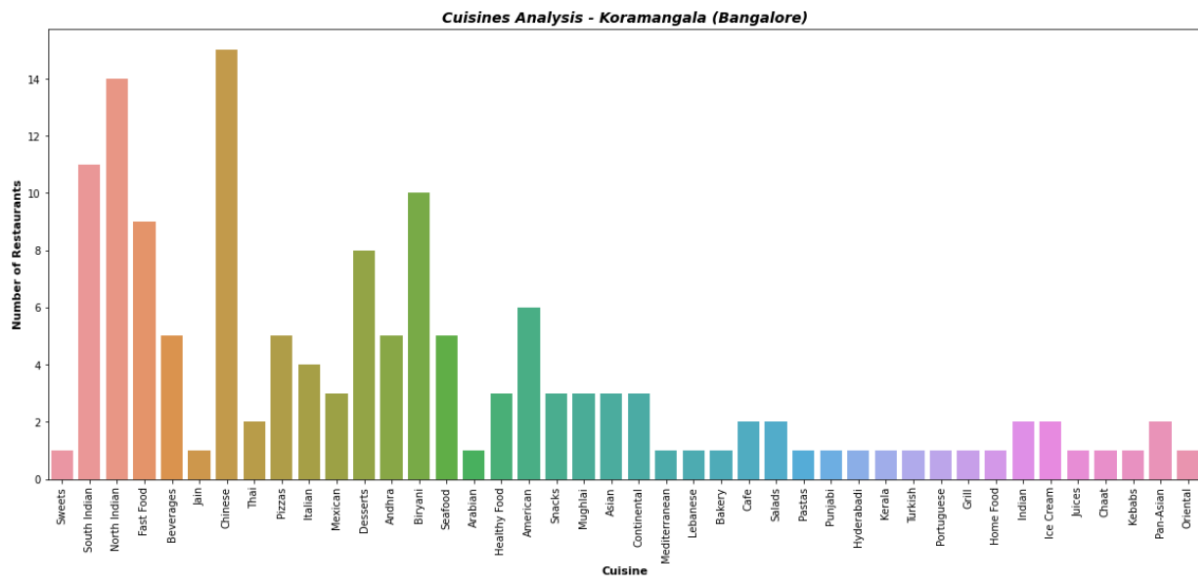

Distribution of Cuisines in Area HSR Restaurants

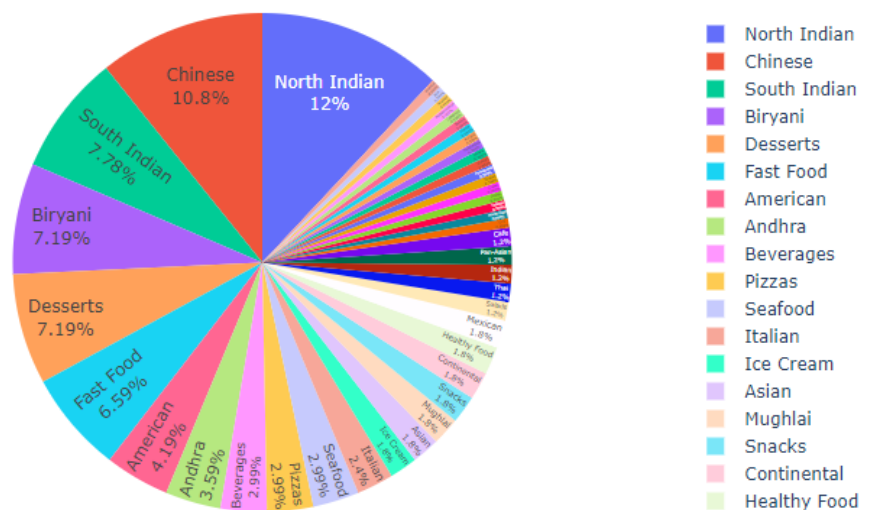

- ✓ InHSRArea,"North Indian"Cuisines are dominated by around'17.4%'followed by"Chinese"&"South Indian"Cuisines'10.9%&'8.7%'Restaurants respectively.
- ✓ In HSR Area, We may have more"North Indian"people staying there.

- Koramangala Area:**

Distribution of Cuisines in Area Koramangala Restaurants

- ✓ in koramangala Area ,"Chinese" Cuisines are dominated by around '12%' followed by "North Indian" & "South Indian" Cuisines '10.8%' & '7.78%' Restaurants respectively.
- ✓ So, we can also infer that Most of the people are fond of the "North Indian" Cuisines.

10. Most preferred Cuisines by the Customers:

[illegible]
